Other Members Present: Endri Kasa, Klara Hoxha, Xhemiljana Troka, Xhulia Toska

Members Absent: Ismail Ali

Topics Discussed:

Working on different type diagrams; Starting with the coding

Decisions Made:

This tenth week, the work towards achieving our goals continues. The main topic discussed on this week was the continuation of diagram creation and implementation. After creating some of the diagrams such as ERD, Class diagrams and Collaboration diagrams, other types have to be implemented. So the work will be focused on:

- DB schema
- State diagrams
- Object diagrams

As per the coding, it will be distributed as follows:

- 2 members will be working on the front end
- 1 member will be working on the database
- 2 members will be working on the back end

So, each member has to complete the respective wikis in general and specifically:

- Endri will be working on the Object Diagram and the back end
- Jonel will be working on State Diagrams and the back end
- Klara will be working on DB schema and the database
- Xhemiljana will be working on the front end
- Xhulia will be working on the front end

Time, Place, and Agenda for Next Meeting:

The next meeting will be held on Thursday, June 2rd at Epoka A bulding. At the next meeting, the tasks assigned for each member will be checked if they have been fulfilled. Also the work will be divided specifically for each team member according to the weekly tasks to be done.
